## Overview of Mentorship Program

Kaiser Academy provides opportunities for individuals or members of organizations to learn more about neuroplasticity and neuromodulation. Our mentorship group includes many disciplines and professions with senior member possessing more than 10,000 hours of experience for assessment, modulation, and patient management. Neuromodulation may include operant conditioning, educational practices, brain function training, stimulation, medications, health practices, or social therapies.

Examples of mentoring topics include:

- Brain Structures
- Brain Function
- Neurobehavioral Disorders
- Learning and Conditioning
- Neuroplasticity and Neuromodulation
- History of Neuroscience
- Culture, Age, Gender, and Individual Differences
- Normative metrics
- Research Methodology
- Descriptive and Inferential Statistics
- Neurobehavioral Ethics

Mentoring activities are flexible and will coincide with the needs and expertise of each mentor and mentee. Mentoring dyads design a mentoring strategy for proposed activities together, approved by senior members of the academy board. Activities must include a minimum of 6 hours of contact time per month with a program of not less than 6 months. Compensation is \$ 200 per contact hour paid to Kaiser Academy.

## Mentor Qualifications

- Demonstrate clear commitment to professional and cultural diversity
- Illustrate experience with and participation in neurobehavioral assessment and/or modulation
- Proficiency in communication and teaching
- Maintain ongoing participation in clinical groups or academic field
- Advance degree in a clinical practice or science
- Possess experience in working with students with diverse learning capabilities

## Application Process

- Complete the attached application describing experience and interest.
- Return the application to the davidkaiser@eegtraining.info.
- All applications will be considered on a case-by-case basis
- Applicants will be notified of our decision within one month of submitting an application.
